

DIOSNA ELEVATOR TIPPER HK 224

HIGH YIELD THROUGH TIME SAVINGS

The Elevator Tipper HK 224 , mainly used in artisan bakeries, is distinguished by its enormous flexibility and additional equipment. The fast lifting and tilting saves your time and strength. The column of the HK 224 is inclined or vertical (HKV 224), mobile or stationary, as an individual system with dead man's control or integrated into a fully automatic system, just to give a few examples.

• Options

- Column vertical / inclined
- Mobile / stationary
- Dead man's control / automatic operation
- Bowl scraping device
- Left / right / tilting over head
- Different bowl collections possible
- Stainless steel version / only clamps in stainless steel / painted

• Benefits

-
- The overhead drive optimizes the space requirement
- Maximum safety due to 2 roll chains
- Matching DIOSNA hoppers

• Technical specifications

• HK 224 / HKV 224
